

The Importance of Problem Definition

WAS*IS Norman: National Weather
Center Workshop on Weather and Society

April 18, 2006

Changing from what **WAS** to what **IS** the future of integrated weather studies

The plan for this session...

- Briefly discuss the article
- Break up into groups and talk about example problem(s)
- Can't report back in large group, so 2 groups get together and report to each other

What's the problem?
